

## EXHIBITOR FEEDBACK

Thank you for participating in the EUFEMED 2019 Conference at the Centre de Congrès de Lyon in Lyon, France from 15 – 17 May 2019.

We value your comments and feedback and ask that you please take a few moments to complete the form below in order to help us improve the event in future years.

	Were you satisfied?		Comments
	Yes	No	
Allocation of exhibition space	x		Tables could have had a cloth over it.
Advance information sent from the organisers	x		
Build-up arrangements and access to venue	x		It was a bit of a puzzle to find the right entrance in the building. An extra sign outside might have helped.
Attendance of delegates at the exhibition stand	x		The posters and exhibition were quite far apart, making people stay in one area or the other. Perhaps consider mixing them up with booths in middle and posters around or vice versa.
Catering arrangements	x		Food was absolutely delicious. Plates would have been a welcome addition.
Cost of exhibition / value for money	x		
Suitability of venue for the exhibition (including facilities, venue liaison and location)	x		The exhibition area was under glass roof. That is nice and light, but unfortunately it got extremely hot and direct sunshine had a negative effect on visibility of our demo-screen.
Liaison with the Conference Secretariat (Conference Collective Ltd) prior and during the event	x		Very helpful staff and really pleasant to interact with.
Are you planning to participate in future EUFEMED events? If yes, please provide details so we can contact you.	x		

### GENERAL COMMENTS - please provide additional feedback (optional)

The boat-trip was a great idea, but unfortunately it turned into a sauna, and being on the inside could not see anything of the highlighted features of Lyon and therefore missed quite a bit of the nice story that was told.
