O&RC helps you to tap into China's market

Useful Data

- China is the largest manufacturing, exporting and OEM country on wheelchair, walking aids, walking stick and orthopedic in the world.
- By 2011, there are 83.7 million disabled in China, among them 24.6 million need artificial limbs or mobility aids.
- By 2011, the aged population over 60 amounted to 179 million. Among which 18.9 million are over the age of 85.
- There are 33 million of the aged population loss of self-care ability completely, 11.68 million among them can be provided with Chinese government subsidy up to 100%.
- By 2010, China has about 40 thousand nursing homes with a total of around 3.17 million beds. The estimated number of nursing homes and nursing home beds would add more 20 thousand and 3.4 million over the next 5 years.
- There are about 800 local manufacturers specializing in producing related products in China. Over 1,000 enterprises are involved in dealing with these products directly or indirectly, less than 100 of them have an annual production value of over USD 10 million.
- The total domestic trade value is about USD 19.3 billion in China, and over 90% of the premium products were imported from abroad which accounted for an annual value of USD 4 billion. Estimates predict that the demand of the domestic market will reach 45.2 billion and it is supposed to grow continuously.
