Exhibition and sponsorship opportunities

Allied health professionals are a group on whom much depends; with over 170,000 registered AHPs representing 12 professions – this is a group your business needs to engage: meet with the prevention, integration and rehabilitation agenda experts.

With our second Rethinking AHP Leadership conference, Chamberlain Dunn Learning will bring together 150 delegates to look at award-winning AHP-led projects, discuss the challenges ahead and share the skills and tools needed by these professionals to rise to top leadership positions.

As well as a select number of exhibition stands, other support packages are available; call Lee Spokes on **0208 334 4500** or email **lee@chamberdunn.co.uk** to find out how your organisation can be part of this unique event.

Feedback from last year...

Speakers were extremely knowledgeable and passionate about their subjects. I did come away with some practical ideas for my own practice. I liked the mix of pacey presentations and the power hours. I certainly networked with people I would not have met elsewhere and caught up with a few old friends as added bonus. Thank you for an inspiring and useful day.

It gave some real food for thought and allowed some exploration of thinking with other AHPs when so often we are lone voices at a senior level in our organisations.

I thoroughly enjoyed the conference. I felt the event was excellent and I feel privileged to have been able to attend. I haven't seen anything else advertised like this event. I liked that this incorporated all AHPs as it kept the focus on leadership. I would definitely consider attending something similar in the future and would highly recommend to others. A fantastic opportunity for networking.

More feedback...

It was such a great opportunity to hear from inspiring leaders and to network with others who are aspiring to lead the way. I found each presentation relevant and took something away from each. I very much look forward to the next event.

Excellent, well planned agenda with a mixture of all participants being together and then into smaller groups. Plenty of time for networking.

These Awards, now celebrating 10 years recognising and rewarding projects and professionals that lead innovative healthcare practice and make a real difference to patients' lives in the healthcare science and allied health professions.

Call for posters

We invite the submission of proposals for poster presentations at...

Rethinking AHP Leadership

PRACTICAL INSPIRATION TO ENERGISE YOUR CAREER

Poster submissions may describe recently completed work, highly relevant results of work in progress, or successful systems and applications, in all areas of good practice by teams led by allied health professionals working in UK healthcare and research. Because posters are not formal publications, work submitted as a poster is eligible for future publication in other venues.

Presenting a poster is a great way to get feedback on work that has not yet been published. Poster presentations will be an important part of the conference, with a session for interactive discussion between presenters and attendees. In order to maintain interactive and exciting poster presentations, at least one presenter per accepted poster is required to attend the conference.

Poster submissions must be in English. The submission must include a 400 word abstract, plus a draft of the final poster. Please be aware that the poster draft is mandatory. Please prepare your poster in either portrait or landscape format.

All submitted materials must be in PDF format with embedded fonts. Abstracts will be included in the conference packs. Poster abstracts and posters should be submitted to
